Academic Projects

- **Restaurant Management System (CDAC)**
- (Project Duration-1 Month)
- Platform : J2EE, ReactJs, Mysql
- **Description :**
- The overall project is designed using the MVC pattern (MVC i.e. Model, View, and Controller). In the Backend, it is using Spring Boot, at the data access layer the project is using Hibernate Framework, and at the front end, we are using HTML, CSS, and Bootstrap

- **Evaluation of Use of plastic Waste in Construction (BE)**
- (Project Duration-3 Month)

Description : This project is to evaluate the possibility of using granulated plastic waste materials to partially substitute for the coarse aggregate in concrete composites. Among different waste fractions, plastic waste deserves special attention on account of its non bio-degradable property which is creating a lot of problems in the environment
